

5 Gallon Bucket Liner -- LDPE

PRODUCT DESCRIPTION: The 5GL liner is a flexible, resilient, tapered, seamless, vacuum-formed insert designed specifically for 5-gallon pails. This pliable insert is molded from FDA-approved low-density polyethylene, which makes it easier to seal if using tight-fitting lids. A contoured lip snaps over the top bead to prevent leakage between the insert and the pail wall.

TYPICAL APPLICATIONS: The 5GL liner will remain pliable longer in cold environments and is perfect for holding all liquids, powders and pastes that can be contained in low-density polyethylene. Examples include chemicals, inks, adhesives, greases, paints, coatings, silicones, and food.
